

SQUEEZER 20-63 V1 SAFE LOCK

GUARANTEED SECURITY

Squeezer 20-63 V1 is RITMO's new pipe squeezer. Through mechanical action, it interrupts the flow of water or gas to safely perform repair work on-site.

- Compact new design for easier on-site use
- Secure flow lock on-site on water and gas pipes with SDR 11 and SDR 17
- Robust galvanized frame
- Work plates at tool edge
- Squeezing roller with anti-loss system

Compared to the previous model, Squeezer 20-63 V1 has reduced on-site bulk and decreased weight by nearly 2 kg.

**WATER
AND
GAS**

**DIAMETERS
20 ÷ 63 mm**

**SDR
11 AND 17**

**PRECISE
AND FLUID
CLOSING
ROTATION**

EASIER

**EASY
ON-SITE
INSERTION**

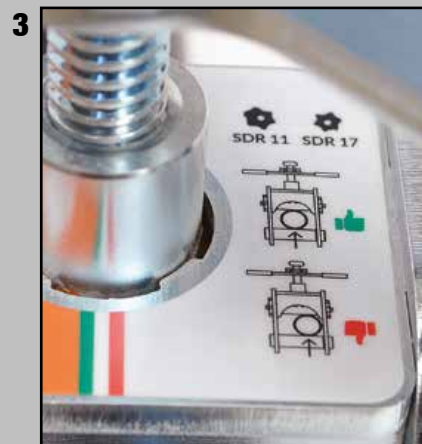

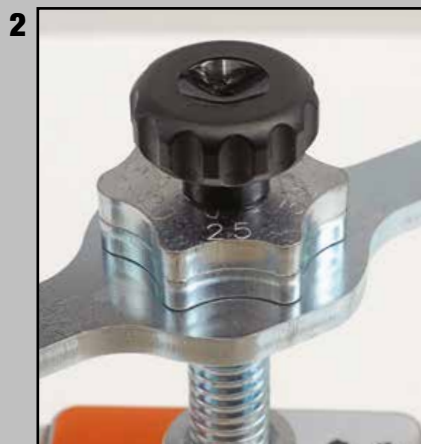

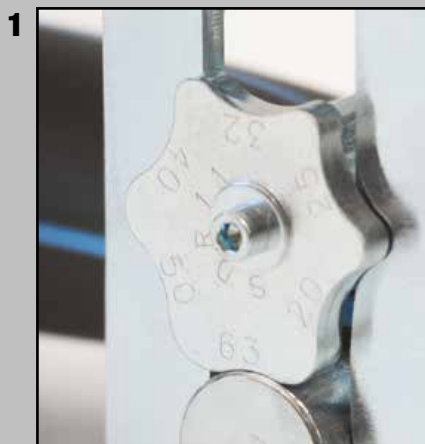

NEW POSITIONING SYSTEM

Even in interventions on pipes with the largest diameters, insertion is always facilitated. The dual-thread system with which the Squeezer equipped also prevents accidental loss of part of the tool.

EVERYTHING YOU NEED FOR PERFECT JOB

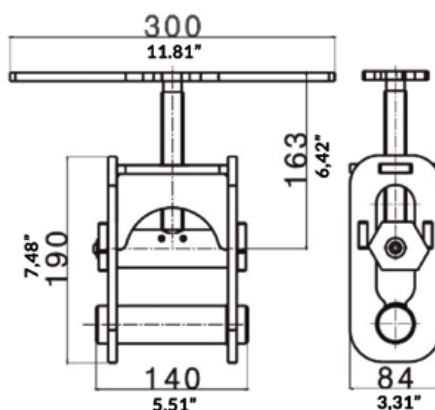

Squeezer 20-63 V1 is equipped with many small details that make work easier.

- 1 – Working ranges and SDR engraved on metal
- 2 – Replacement plates immediately available
- 3 – Operational infographic

TECHNICAL FEATURES

Working Range	20 ÷ 63 mm SDR 11 and 17
Materials	HDPE
How to Operate	Manual
Application	Water – Gas – Pressure Fluids
